EDUCATION

B.S. Software Engineering (In Progress) PAF-IAST — Pak-Austria Fachhochschule, Haripur Semester 7 · CGPA: 3.18 / 4.00	2023 – 2027 (Expected)
--	-------------------------------

TECHNICAL SKILLS

Languages: Dart, Python, JavaScript, PHP, HTML5, CSS3, SQL, TypeScript
Mobile: Flutter, Dart — state management (Provider / setState), responsive UI
Web: HTML5, CSS3, Bootstrap, JavaScript, Next.js, Tailwind CSS, REST API integration
Backend: PHP, Node.js, Express.js, Spring Boot (basic)
AI / ML: Python basics — pandas, NumPy; Claude AI integration
DevOps: Git, GitHub, GitHub Actions, Docker (basic), CI/CD pipelines, Vercel, Railway
Databases: MySQL, Firebase Firestore, PostgreSQL, Prisma ORM
Tools: VS Code, Android Studio, Postman, Figma (basic)

PROFESSIONAL EXPERIENCE

IT Center Intern (Internship), Pakistan Aeronautical Complex (PAC), Kamra - Worked across the IT Center's infrastructure, gaining hands-on exposure to network, systems, and hardware support. - Performed hardware testing and troubleshooting to support day-to-day IT operations. - Built a real-world software solution as part of the internship, applying practical development skills to an operational use case.	Jun 15 – Jul 24, 2026
Flutter Developer (Internship), Quantum Hashlink - Built DoctorConnect (appointment scheduling), Food Delivery, and an offline Multi-Calculator Suite (15+ calculators in one app) using Flutter. - Implemented state management (Provider), REST API integration, and responsive UI across all apps. - Assisted in testing, deployment, and release cycles.	2024
Web Developer, Waiz Software House - Developed a full-stack LMS (PHP + MySQL) with dashboards, course management, and student progress tracking. - Built and optimized client portfolio websites for performance and SEO.	2024 – 2025
Frontend Developer, Technik Nest - Built responsive web interfaces (HTML5, CSS3, JS) across multiple client projects. - Developed reusable component library and improved mobile UX across all deliverables.	2023 – 2024

KEY PROJECTS

NexusAgent — AI-Powered Web3 Security Intelligence Platform

Next.js 14 · TypeScript · Tailwind CSS · Node.js/Express · PostgreSQL/Prisma · Solidity · Claude AI · Alchemy SDK

- Built a platform that scans blockchain wallets and calculates a security risk score, using AI to explain risks in simple language.
- Implemented real-time detection of phishing attacks, rug pulls, malicious approvals, and suspicious wallet activity.
- Added a one-click Emergency Revoke feature to remove dangerous token approvals, plus an interactive risk analytics dashboard.
- Implemented secure wallet-based authentication using Sign-In with Ethereum (SIWE); deployed via Vercel and Railway.

Live Demo: hackathon-namespaces.vercel.app

Campus LMS — PAF-IAST (Institution-wide)

PHP · MySQL · Bootstrap · JS

- Full campus management system deployed across the entire PAF-IAST institute.
- Modules: Student portal, Teacher dashboard, Admin panel, HR, Accountant, attendance, grading, and finance.

Offline Multi-Calculator Suite

Flutter · Dart

- Single offline Flutter app housing 15–16 different calculators (scientific, unit converter, BMI, finance, and more).
- No internet required; optimised for performance with clean, intuitive UI.

DevOps Build & Monitor Pipeline

GitHub Actions · Docker · Shell

- Automated CI/CD pipeline with build, test, and deploy stages plus health monitoring and failure alerts.

Hospital Management System

PHP · MySQL

- Patient records, doctor scheduling, billing, and appointment management.

DoctorConnect App

Flutter · Dart · REST API

- Doctor-patient communication with appointment scheduling and role-based access.

CERTIFICATIONS

Python Bootcamp — Devtown (Microsoft & Google Collaboration) · AI Chatbot Workshop — Devtown · Software Internship Certificate
